Cleanliness
Without Compromise

Professional
Cleaners

THANKS TO ENZIM PRODUCTS, YOU CAN ENJOY A CLEAN AND SAFE ENVIRONMENT

"It's really super strong. And it removes the old stone.
By far the best of all cleaners."

"Irreplaceable! It reacts beautifully with the stone,
dissolves it and has a very pleasant smell."

- E 420

"The best product I've ever used, everything comes off,
from the oven, from the induction hob. GREAT!"

"A brilliant product for me. It cleaned the oven and the trays
beautifully. Great. I recommend it. I will definitely buy again."

- E 240

"The liquid is sensational, the first time the entire hood is clean
in 4 minutes! It was enough to spray and wipe with a sponge."

"The best!!! For cleaning kitchen cabinets on top, where you
know it's always hard"

- E 270

"This product is a miracle. I fell in love with it and the grout looks
like new. I didn't have to scrub, the effect after a few seconds."

"If I hadn't done it with my own hands - I wouldn't have believed
it. An outstanding, phenomenal product."

- E 431

"My floor shines like it was cleaned by professionals. I finally
found a liquid that doesn't smear, washes clean, leaves a shine."

"Super effective - even in minimal amounts.
Smells nice and non-invasive. I recommend it."

- E 351

Satisfied customers

HAND WASH HYGIENE

pH 5-6

Liquid soap for hands, hair and body

E 100 / E 105

Dermatologically tested soap for washing the whole body. Thanks to its formula and pH 5.5, it protects the skin from excessive drying and does not destroy the natural protective layer. The skin is moisturized and velvety to the touch.

Gel for hygienic hand disinfection without the use of water

STERILE HANDS GEL - E 11 / E 110 / E 115

Perfect where access to clean water is difficult, e.g. at school, car, public transport, restaurant, hotel, work and shopping. It absorbs well, is efficient in use, has a bactericidal, yeasticidal and antiviral effect against enveloped viruses.

Permit No. 9237/23 for marketing a biocidal product

pH 5

Antibacterial liquid soap for washing hands and body

STERILE HANDS AND BODY SOAP - E 120 / E 125

Skin-neutral pH and additives contained in the soap prevent excessive drying of the epidermis and care for hands. It removes pathogenic bacteria present on the skin surface, preventing their further reproduction. The product is intended for use wherever special hygiene is required.

CLEAN KITCHEN

pH 7

Hand dishwashing concentrate HAND WASHING DISHES - E 201 / E 205

Highly concentrated preparation for manual washing of all kitchen utensils. It thoroughly cleans and polishes without leaving stains or streaks on the surface of dishes.

pH 2

pH 13

Concentrate for machine dishwashing PROFESIONAL DISHWASHER - E 2110

Removes heavy soiling caused by fats, protein, starch, coffee and tea. Suitable for all types of water hardness.

Concentrate for shining dishes in dishwashers DISH-POLISHING - E 225

Facilitates rinsing and drying of dishes during the rinse cycle. It does not cause streaks and raids.

pH 1

Concentrate for removing mineral deposits STONE REMOVAL - E 231 / E 235

Highly concentrated preparation for effective removal of all kinds of mineral deposits formed during the operation of devices. It protects them from corrosion. It is safe for surfaces made of acid-resistant steel, tiles, ceramics, glass and plastics. Regular descaling prolongs the life of the appliances.

pH 13

Burn removal preparation DECARBONIZE LIQUID - E 240 / E 245

Strongly alkaline preparation for cleaning accumulated and burnt grease stains from ovens, pots, pans, convection ovens, deep fryers, grills and other similar devices. Contains corrosion inhibitors. Biodegradable. After use, the surface remains clean and shiny.

pH 10

Concentrated cleansing and degreasing milk SCRUBBING MILK - E 250

Concentrated preparation in the form of an emulsion for cleaning cookers, sinks, countertops, washbasins, glazed tiles, terracotta tiles, shower cabins as well as pots and tableware. Effectively removes stubborn dirt, grease and scale deposits without scrubbing. Leaves clean and shiny surfaces without scratches with a pleasant, fresh, lemon scent.

Non-rinse alcohol hand and surface disinfectant QUICK STERILE - E 260 / E 265

Liquid for surface disinfection for use in health care facilities, food industry, public utility facilities and catering facilities. For use in industrial and home environments. The preparation has a bactericidal, fungicidal and virucidal effect.

Permit No. 9236/23 for marketing a biocidal product

pH 11-13

Professional product for degreasing various surfaces STRONG DEGREASER - E 270 / E 275

Intended for cleaning greasy surfaces that come into contact with food. Removes animal and vegetable fats, proteins, soot and others. It is ideal for ovens, hoods, slicers, grills, fireplace glass, windows, walls, sports shoes, plastic furniture, bicycles, cars, motorcycles, lawnmowers, engines and more.

Preparation for cleaning and maintenance of stainless steel STAINLESS STEEL CARE - E 280

Spray preparation for cleaning and maintenance of surfaces made of stainless steel, precious metals and aluminium. Cleans and polishes surfaces with ease. It is perfect for the care of cabinets, dishwashers, tables, railings, metal door coverings, elevators and other surfaces made of stainless steel.

SHINY FLOOR

pH 8

Concentrate for everyday floor cleaning with a lemon scent DAILY FLOORS - E 301 / E 305

Highly concentrated preparation for everyday cleaning of all waterproof floors. Cleans thoroughly, leaving a long-lasting, fresh, lemon fragrance in the cleaned rooms.

pH 8

Concentrate for daily cleaning of floors with a cherry scent DAILY FLOORS - E 301w / E 305w

Highly concentrated preparation for everyday cleaning of all waterproof floors. Cleans thoroughly, leaving a long-lasting, pleasant, cherry fragrance in the cleaned rooms.

pH 10

Strong concentrate for everyday floor cleaning FLOOR CLEANING SYSTEM HD - E 311 / E 315

Low-foaming preparation, ideal for manual and machine washing of floors and degreasing of waterproof surfaces such as PVC, terrazzo, marble, gres, concrete. It is characterized by excellent wetting and cleaning properties as well as effective removal of difficult dirt. Cleans quickly and thoroughly, protects washed surfaces, leaves no streaks.

pH 13

Strong concentrate for thorough cleaning of surfaces STRONGER HD - E 321 / E 325

Niskopieniący koncentrat przeznaczony do gruntownego mycia powierzchni odpornych na środki zasadowe. Doskonale sprawdza się przy myciu maszynowym i ręcznym lub przy użyciu spryskiwacza pianotwórczego. Skutecznie usuwa tłusty brud, smary, oleje oraz ślady po wózkach i butach w marketach i zakładach przemysłowych, czyści elewacje i fugi epoksydowe.

pH 8

Long-lasting and high-gloss polymer coating POLY HD - E 331 / E 335

A professional preparation for the maintenance of surfaces exposed to damage in rooms with heavy traffic. Modern technology of zinc cross-linking allows to create a very durable coating that is resistant to dirt, scratches, footprints. After drying, it gives a shine without the need for polishing.

pH 12

Strong concentrated preparation for removing polymer coatings FORCE STRIPPER HD - E 341 / E 345

Low-foaming preparation for thorough cleaning and removal of old, damaged wax, emulsion and polymer coatings. Suitable for manual and machine cleaning. Thanks to its low pH value, it is perfect for alkaline-sensitive floors.

pH 7

Concentrate for everyday cleaning of wooden floors, furniture and panels CLEAN WOOD - E 351 / E 355

Concentrate for daily cleaning and maintenance of wooden floors, varnished and unvarnished, such as panels, parquet, etc. It is perfect for cleaning other wooden surfaces, such as paneling, skirting boards and furniture. Thanks to modern additives, e.g. montan wax, the preparation has moisturizing and preservative properties.

pH 10,5

Preparation for cleaning carpets and upholstery CARPET AND UPHOLSTERY WASH - E 361 / E 365

Preparation for manual and extraction cleaning of water-resistant carpets, carpets and upholstery. Effectively removes dirt and stains, cleans, degreases, cares and nourishes the color of washed surfaces. Concentrated product should be used after dilution with water. The product can also be used for cleaning and degreasing plastic surfaces, e.g. window frames, car dashboards, etc.

STERILE BATHROOM

pH 13

Concentrated gel for cleaning and whitening sanitary facilities BLEACH AND WHITENING GEL - E 400 / E 405

Preparation based on active chlorine for cleaning and whitening of sanitary facilities. Perfect for bleaching cotton and linen fabrics and removing stains. It neutralizes unpleasant odors and removes discolorations caused by the presence of fungi. The use of active chlorine guarantees the dissolution of tough dirt and ensures a high level of hygiene. Effectively cleans grout and other acid-sensitive surfaces.

pH 1

Concentrate for everyday cleaning of sanitary facilities TOILET CLEANING SYSTEM HD - E 411 / E 415

Concentrated preparation for daily cleaning of all surfaces and objects in acid-resistant toilets. Recommended for washing sinks, toilet bowls, urinals, shower cabins and bathroom fittings. Removes limescale and rust, leaving a pleasant fragrance.

pH 1

Concentrated washing and descaling gel DESCALING GEL - E 420 / E 425

Concentrated gel for everyday cleaning of sanitary facilities. Effectively removes scale, rust and soap deposits from e.g. toilets, urinals, shower cabins. The consistency of the gel facilitates the adherence of the preparation even on vertical surfaces, which extends the contact time and guarantees greater washing efficiency. It has a very pleasant, fresh fragrance.

pH 1

Concentrated preparation for thorough grout cleaning

SHARK - E 431 / E 435

Product for thorough cleaning of cement joints. Dissolves hard-to-remove dirt without scrubbing. A special combination of surfactants enables quick self-removal of water-insoluble dirt, such as lime mortar, rust, lime deposits, urine scale, etc. It is perfect for keeping drainage holes unobstructed.

pH 13

Preparation for thorough removal of mold and fungus

ANTI MOLD - E 440 / E 445

A product for combating various types of troublesome mold on walls, floors and other chlorine-resistant surfaces. It has strong washing and whitening properties. Perfectly removes traces of mold on the walls, black deposits (mold) in the gaps between tiles, around bathtubs, sinks, on kitchen furniture, windows, doors, etc. The preparation is effective against microscopic fibrous fungi, algae and mosses. Removes unpleasant smells.

pH 2-3

Preparation for cleaning and impregnation of shower cabins, ceramic tiles and bathroom fittings

SAFE CABIN - E 450 / E 455

The product protects the cleaned surface with a hydrophobic layer, which prevents the re-deposition of dirt and facilitates the next washing process. It's not suffocating, you can lock yourself in the shower and clean freely. Effectively removes scale deposits, greasy dirt and soap deposits, does not cause unsightly stains, and after thorough rinsing the surfaces are shiny and clean.

Hydrophobic coating for shower cabins and bathroom fittings

SMART GLASS - E 460

It is used to protect shower cabins and faucets, windows and mirrors, glass and metal elements and ceramic tiles. Perfectly impregnates and protects against the adverse effects of water and other impurities. Prevents the formation of deposits and facilitates subsequent cleaning of the surface. It leaves an antistatic layer that limits the growth of bacteria, fungi and mites, leaves no streaks or stains.

"I am surprised by the effectiveness of the liquid! Cleaning the cabin has never been so easy and pleasant. The liquid does not sting the eyes, does not have an intense smell, and is extremely effective. I highly recommend it and will definitely buy it again."

"I am delighted! A product worth recommending! You spray the surface, spread it with a sponge and rinse after a while, I have never had an easier cleaning of the cabin in my life! I will buy again."

- 450

Satisfied customers

PERFECT ROOM

pH 8

Multi-purpose glass cleaner WINDOWS AND ALL PURPOSE - E 500 / E 505

Ready-to-use preparation for cleaning glass surfaces, such as windows, mirrors, shop windows, refrigerated counters and other washable surfaces, such as furniture, ceramic tiles, kitchen shelves, plastic and chrome surfaces. Thanks to the alcohol content, it effectively cleans and evaporates quickly, leaving no streaks. Leaves a pleasant, fresh scent.

pH 7

Concentrate for everyday cleaning of washable surfaces SURFACE CLEANING SYSTEM HD - E 511 / E 515

Concentrated preparation for cleaning all washable surfaces, e.g. glass, furniture, marble, plastic surfaces, ceramic tiles, doors and windows. Does not leave streaks or stains. It gives the cleaned surfaces a delicate shine, pleasant smell and antistatic properties. Effectively removes impurities and protects surfaces from dirt.

"Amazing! Just ordering more products. You can see that the surfaces are washed."

"A great remedy, as described, smells nice, and most importantly, it cleans everything, efficient."

"Super quality. Very efficient concentrate."

- E 511

Satisfied customers

SCENTED ROOM

pH 7

AIR FRESHENER

E 600 Smell of Spring / E 610 Smell of Summer / E 620 Smell of Autumn / E 630 Smell of Winter

Air fresheners based on natural essential oils stay in the room for up to 24 hours. Their unique formula ensures neutralization of unpleasant odors, such as tobacco smoke or moisture. They are perfect for shops, flats, hotel rooms, elevators, offices and toilets.

"E 630 - [Smell of Winter](#) - lasts a long time, the fragrance is very efficient and smells beautiful. In general, I recommend very good cleaning products both for home and cleaning companies."

"I highly recommend the product E 600 - [Smell of Spring](#). It gives a really beautiful and fresh smell!"

"The product adapts very well in large and small rooms when it comes to the intensity of the fragrance. Long-lasting [Smell of Summer](#) and well-chosen ingredients for the season."

"A nice [Smell of Autumn](#) that lingers on the materials in the room for a long time."

Satisfied customers

LIMITED PRODUCTS

Granules for removing snow and ice ICE AVENGER - E 7010

The product removes icing from roads, sidewalks, stairs, freezing rain, snow slippery, frost, snow and black ice in the winter season. The effect lasts even up to 72 hours. The granulate also prevents dust from settling on unpaved roads, sports fields, tennis courts and speedway tracks. It does not adversely affect the natural environment, does not corrode vehicles and does not damage road surfaces and footwear. It can also be used in moisture absorbers.

Preparation for removing difficult dirt EASY PURE - E 720

Spray preparation for removing, among others, old paint coatings and paint residues from metal, wood, brick, concrete and other solvent-resistant substrates. Effectively and quickly removes dried adhesives, hard sealants, silicones, polyurethanes, resins, old greases, oils and ink as well as one-component paints, e.g. acrylic, oil, powder, chlorinated rubber, in aerosol.

Disinfecting tablets with active chlorine ANTIVIRUS TABS - E 730

Under appropriate conditions, the preparation has a bactericidal, virucidal, fungicidal and tuberculocidal effect. It can be used in health and veterinary facilities, households, gastronomy, hotels, educational institutions, agriculture, food industry, etc. It is used to disinfect various surfaces, sanitary facilities (toilets, bathtubs, washbasins, showers, drains), waste containers, chutes, stainless steel devices and equipment, etc.
